[Web.com to anchor SkySong development expansion](#)

Web.com, a leading provider of Internet services and online marketing solutions for small businesses, is relocating and becoming the anchor tenant at the new SkySong 4 following its 2016 acquisition of a previous tenant in the development, Yodle. Web.com's new space will be used primarily for sales, administration and local executives. With Web.com's presence, SkySong 4 is now 72 percent leased. With its nearly 200 employees in Scottsdale (and 3,500 company-wide), Web.com will occupy 36,503 square feet in SkySong 4.

[SkySong 4 awarded LEED Silver Certification](#)

SkySong 4 has joined its fellow office buildings in the project in a very "green" club - and continues to set the standard for office work space innovation. The four-story, 141,000-square-foot office and research building at the intersection of SkySong Boulevard and Innovation Place has achieved Silver LEED certification from the U.S. Green Building Council for its sustainable design and construction.

Are you an existing or aspiring small business, looking for some guidance? Consider attending sessions at Economic Development's five-week training series now in week two at SkySong. Mentor services also will be available. [Register for future sessions here.](#)
