

Date	What	Min.
7-30-75	Dad took me to get rocks to put around the various plants.	30
7-31-75	Unloaded rocks around the plants	30
8-18-75	Joe David, and me went out. I planted prickly pear. Started on Creosote Bush, then raked, wire brushed rocks + signs, put rocks around trees + bushes, and painted them. We ended up at the Saguora Cactus.	5 1/2 hr.
8-19-75	Started at hackberry did the above ended up at the Staghorn Cholla Quinn + Me	4 1/2 hr.
8-21-75		
8-21-75	Me, Ronny, and Quinn went out started on Yucca Eleta + finished the rest of the plants to Yucca.	2 1/2 hr.
8-21-75	Ron, Quinn, David, and Myself. Quinn and Ron worked on the Catclaw. Me David and mom worked on painting signs, and letters. Ended on Blue Palo Verde.	4 hr.
9-1-75	Me, David, Dad went out and painted the rest of the signs + the rocks around Milkweed. also hauled away the limbs of the Catclaw	

8-13-75 Went and got paint 4 Gallons From KMart

8-13-75 Went over to Sis. Weathersby's house and dug out prikle pear for project

Need to bring - glue, paint + brush, rocks
Saws, wrench, bolts, preners

August 27, 1975

Tracy Armstrong 2650 E. Campo Bello Dr. Troop 108

1. Foothills Scenic Drive was where ~~I worked on and completed my~~ ^{the place I selected as before} Eagle ^{Service} Project. ~~The thing I selected to do was beautify and improve the area between the beginning and the Carefree Highway~~ ^{of work}

3. This ~~is approximately~~ ^{consists of} ~~miles with about 15 plants.~~ ¹⁸ ~~The~~ ^{and 1013} Foothills Scenic Drive is ~~on one of the main highways in North~~ ^{along the Cave Creek Road going toward} Phoenix. ~~It is a Drive that has certain plants marked and identified to give visitors the names of the desert.~~ ^{4. the Scenic Drive} It was struck by vandals just lately and was in need of repair. ~~It is under the Maricopa Parks and Recreations Dept.~~ The time I discussed this as an Eagle Project was on May 16th. ~~Talked about a lot of projects that I could do.~~ I decided on the Foothills Drive because I thought the area looked terrible out there. ~~The person who is in charge of that certain part of the department was a Mr. John DeYoung and he gave the okay.~~ ^{It was} The date was ~~May 29 or 30th.~~

The materials needed are: rakes, shovels, white paint, redwood stain, 6 paintbrushes, 2 wire brushes, hand broom, bolts and nuts, wrenches, wagon, Igloo water jug, rope, pruners, gloves, hedge-trimmers, paper cups, turpentine, empty bleach bottle, knives, and aluminum foil. A prickly pear plant was donated by Claudia

Weathersbee. ¹Cre, ¹He Hog, ¹M, ¹BPV, ¹FPV, ¹Sag, ¹Cat, ²Hack, ²Bar, ²PP, ³Morman, ³Cholla, ³Grey, ³Oct, ²Stag, ²Milk

I had the help of the following people: Ronald William Davis, David Allon Vann, Joseph Kelley, Quinn Armstrong, my father and mother, and myself. We would wire-brush the signs and this would take the paint off and clean them of the dirt. We raked around the signs and plants and then put the rocks around the plants in a circle. We also wire-brushed the rocks off to get rid of the dirt then painted them.

Here is the personal record which I kept.

- 7-30-75 Dad took me to get rocks from the Cave Creek Riverbed to put around plants. Time: 30 minutes
- 7-31-75 Dad took me to the beginning of the Foothills Drive and we started there unloading rocks along at each plant. Time: 30 minutes
- 8-18-75 Joe, David, and I went out to Creasote Bush. Mom dumped them off with the equipment and she took me up to the prickly pear and I planted the new prickly pear plant.(The old one had died.) Mom took me back to the other guys and we started our work. We raked, wire-brushed, put the rocks around the plants, wire-brushed the rocks, and then painted them. We ended up at the Saguaro. Time: 5 hours
- 8-19-75 Quinn and I started at the Desert Hackaberry did the things mentioned above and we ended up at the Stag-horn Cholla. Time: 4½ hours
- 8-21-75 Ronny, Quinn, and I went and started on the Yucca Eleta and finished the rest of the plants on up to the Yucca. Time: 2½ hours

8-21-75

(Later on in the day). Ronny, Quinn, David, and I Quinn and Ronny went to work on the Catclaw, trimming it, raking it up, and making a big pile with the limbs and the stuff they had raked up. David and I worked on painting and brushing off the signs with the broom. We started at the Creasote Bush, David painting the signs and the posts and I painted the lettering of the names of the plants. Mom helped David and we ended up at the Blue Palo Verde. We then went to pick up Ronny and Quinn at the Catclaw. While we were waiting for them I wire-brushed the Sign Catclaw. (Some guy who was riding by thought I was destroying the sign and he stopped.)

Time: 4 hours
