9:00 am - Noon**

In this half day bookbinding workshop with Lynda Abare, you will create 2 beautiful little Star Books: adhering decorative paper to binders board and learning how to miter in order to produce attractive book corners. No sewing involved. Mitering is a skill you will need and appreciate as a continuing book maker and binder. Step-by-step you will work together to fold origami pages, then add ribbons and beads to create two (2) Star Books. This versatile book form is interactive and can be an unusual greeting card, hung as a necklace or ornament, or even a photo album. Add your photos inside and enjoy this charming little book year after year as an "heirloom ornament". Class size is limited .
